Ansaldo STS: contract for the Red Line of the Stockholm Underground takes effect today

The EUR 80 million order is for the upgrade of the on-board and ground signalling system

With reference to the press release issued on 8 November 2010, Ansaldo STS (STS.MI), a Finmeccanica company, announces that the contract agreed between its subsidiary Ansaldo STS Sweden AB and contractor SL, Storstockholms Lokaltrafik (Greater Stockholm Public Transport) to work on upgrading the Stockholm Underground's signalling system came into effect today.

The contract – worth around EUR 80 million - is for the complete replacement of the current signalling system on this line (41 km, 36 stations) and the on-board systems of 30 trains on the line, and may be extended to other lines and trains.
