## Directors' Report as at 30 September 2018

## Introduction

The Group's financial performance was generally satisfactory for the first nine months of 2018 and can be summarised as follows:

## **Key performance indicators**

| <u>(</u> €K)                          | 30.09.2018 | 30.09.2017 | Change    | 31.12.2017 |
|---------------------------------------|------------|------------|-----------|------------|
| New Orders                            | 630,349    | 915,488    | (285,139) | 1,500,823  |
| Orders Backlog                        | 6,064,112  | 6,384,461  | (320,349) | 6,457,458  |
| Revenues from contract with customers | 983,887    | 945,035    | 38,852    | 1,360,967  |
| Operating profit (EBIT)               | 80,842     | 84,542     | (3,700)   | 100,827    |
| Net profit/loss                       | 61,060     | 61,574     | (514)     | 64,868     |
| Net working capital                   | 177,534    | 182,914    | (5,380)   | 127,168    |
| Net invested capital                  | 440,079    | 438,520    | 1,559     | 371,458    |
| Net Financial Position (receivables)  | (315,820)  | (295,703)  | (20,117)  | (357,535)  |
| Free Operating Cash Flow              | (39,703)   | (35,213)   | (4,490)   | 30,570     |
| R.O.S.                                | 8.2%       | 8.9%       | -0.7 p.p. | 7.4%       |
| R.O.E.                                | 8.6%       | 13.4%      | -4.8 p.p. | 9.0%       |
| V.A.E.                                | 32,536     | 32,901     | (365)     | 34,002     |
| Research and development              | 31,171     | 28,584     | 2,587     | 41,344     |
| Headcount (no.)                       | 4,275      | 4,161      | 114       | 4,228      |

Ansaldo STS Group recognised a net profit of €61.1 million for the period under examination, compared to €61.6 million for the corresponding period of the previous year. Revenue came to €983.9 million, up on the figure recorded in September 2017 (€945.0 million), and ROS was 8.2%, compared to 8.9% in the corresponding period of 2017. It should be noted that starting from 1 January 2018, the Group applied the new IFRS 15 accounting standard on recognition of revenues from customer contracts; of particular note, for the first nine months of 2018, the overall difference in terms of revenues from customer contracts and EBIT, if the new rule had not been applied, would have amounted to approximately €5.8 million, which would attest to a ROS of approximately 8.8%, practically in line with the first nine months of the previous year.

#### In detail:

Orders totalled €630.3 million compared to €915.5 million as at 30 September 2017; the orders backlog amounted to €6,064.1 million (€6,384.5 million as at 30 September 2017 and €6,457.5 million as at 31 December 2017).

Revenue totalled €983.9 million compared to €945.0 million in the same period of 2017 (+4.1%).

Operating profit (EBIT) stood at €80.8 million compared to €84.5 million in the same period of 2017. ROS was 8.2% compared to 8.9% in the previous year. The reasons for this decrease are expounded upon in the Notes to the income statement.

Net profit stood at €60.1 million (€61.6 million in the same period of 2017).

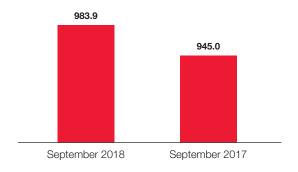

The Group's net financial position decreased from -€357.5 million as at 31 December 2017 (-€295.7 million as at 30 September 2017) to -€315.8 million.

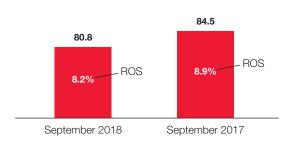

Research and Development expense amounted to €31.2 million, an increase of €2.6 million (€28.6 million in the same period of 2017).

The Group's workforce as at 30 September 2018 numbered 4,275, an increase of 114 compared to 4,161 as at 30 September 2017 (4,228 employees as at 31 December 2017); the average number of employees was 4,181, an increase of 120 net employees compared to 4,061 employees in the same period of the previous year (4,081 employees on average for 2017).

## Revenues from contract with customer as at 30 September 2018 and 2017 (€m)

## EBIT and ROS as at 30 September 2018 and 2017 (€m)

The process of updating and preparing a Strategic Framework, the Strategic Business Overview, was completed in the first half of the year. Markets were analysed in a structured manner, the possible positioning of the Group was assessed and consequent actions were defined.

In particular, the process of reviewing and updating the current organisational structure was initiated; it includes:

- Two regional Business Units Europe, Middle East & Africa (EMEA) and Americas & Asia-Pacific (Americas & APAC)
   moving away from a market sector approach (Railways & Mass Transit and Freight) to a regional one, in order to strengthen customer focus by leveraging the Group's global presence;
- A new Business Operation & Maintenance (O&M) Unit, an organisational unit aimed at supporting the evolution towards a "Full Service Provider" approach;
- An integrated organisational Technology Unit for the integration of global skills in Engineering, Roll out, Product Development, Verification and Validation (product/system);
- A global Supply Chain & Construction organisational unit for the global unification and management of activities at group level;
- A new Innovation organisational unit, a structure dedicated to the aggregation and development of capabilities and supply in the field of innovation;
- A global support unit for Technical Compliance and Information Technology (IT) activities for integrated management of HSE, Quality, Certification and IT responsibilities.

This organisational development, approved by the Board of Directors, represents an enabling component for the Group's growth strategy. The change will be implemented in stages with the first changes taking effect in the last quarter of 2018. The objective is to finalise the anticipated organisational structure by the first half of 2019.

It should also be noted that the Shareholders' Meeting held on 10 May approved the change of the financial year-end from 31 December to 31 March of each year, and therefore the current financial year will have a duration of 15 months and will run from 1 January 2018 to 31 March 2019.

Finally, in September, Ansaldo STS S.p.A. received aletter of award from the ArRiyadh Development Authority (ADA) relating to the Operation & Maintenance contract for Lines 3, 4, 5 and 6 of the Riyadh metro.

In order to provide further information on the economic and financial situation of the Group, the following reclassified financial statements are provided: Consolidated income statement, Consolidated statement of financial position, Consolidated net financial position and Consolidated statement of cash flows.

The Group's performance as at September 2018 and 2017 is shown in the following table:

|   | For the first nine                      | e months of                             |

Linked entries between the reclassified consolidated income statement and consolidated income statement:

In summary, the value of the operating profit decreased compared to that recorded in the first nine months of the previous financial year (-€3.7 million) as the effect of higher production volumes was offset by increased research and development activities and by the impact, as previously reported, of the application of the new IFRS 15 accounting standard (-€5.8 million). The combined effect of lower overall net financial income and expense (-€0.3 million) and lower tax burden (+€3.5 million), due in part to lower taxable income and in part to the different mix of pre-tax profits (losses), together with the above, determined the change in net profit (-€0.5 million).

<sup>(\*)</sup> Includes the items "Costs for purchases", "Services", "Personnel costs" (net of restructuring costs, net of "Internal work capitalised"). (\*\*) Includes the net amount of "Other operating income" and "Other operating expenses" (net of restructuring costs and write-downs).

The Group's reclassified consolidated statement of financial position as at 30 September 2018 is set out in the table below:

| Consolidated statement of financial position (EK)                                 | 30.09.2018  | 31.12.2017  |

| Net financial position  | (315,820)   | (357,535)   |

Linked entries between the reclassified consolidated statement of financial position and the consolidated statement of financial position: (\*) Includes "Tax receivables", "Other current liabilities" and "Derivative assets", net of "Tax payables", "Other current liabilities" and "Derivative liabilities".

Net invested capital totals €440.1 million, up on €371.5 million as at 31 December 2017 (€438.5 million as at 30 September 2017); the increase of €68.6 million is due to the rise in other net non-current assets and liabilities (€18.3 million) mainly due to the recognition of deferred tax assets following the adoption of the new IFRS 15 accounting standard and of the net working capital (€50.4 million) as a result of the increase in total net inventories and the reduction in trade payables, partly offset by the decrease in trade receivables.

The net financial position as at 30 September 2018 compared to the data as at 31 December 2017 is set out in the statement below:

| <u>(</u> €K)   | 30.09.2018            | 31.12.2017            |
|--|-----------------------|-----------------------|
| Short-term debts Medium/long-term loans and borrowings Cash and cash equivalents   | 278<br>-<br>(282,968) | 424<br>-<br>(327,326) |
| BANK LOANS AND BORROWINGS  | (282,690)             | (326,902)             |
| Financial receivables from related parties Other financial receivables Current financial assets at fair value through profit or loss | (33,130)              | (232)<br>(30,401)     |
| FINANCIAL RECEIVABLES  | (33,130)              | (30,633)              |
| Financial liabilities towards related parties Other short-term financial debts Other medium/long-term loans and borrowings           | -                     | -                     |
| OTHER DEBTS  | -                     | -                     |
| NET FINANCIAL POSITION   | (315,820)             | (357,535)             |

As at 30 September 2018, the Group's net financial position (greater financial receivables and cash and cash equivalents than loans and borrowings) was -€315.8 million, compared to -€357.5 million as at 31 December 2017 and -€295.7 million as at 30 September 2017.

It is noted that the financial receivables record the value of the Libyan dinar, which was received in advance by the local party on the first of the two contracts acquired in Libya by the parent company and deposited at a local bank and tied up pending the resumption of the activities (€28.4 million).

The consolidated statement of cash flows for the period ended 30 September 2018 follows:

| (€K)   | 30.09.2018  | 30.09.2017  |          |
|--|---|---|----------|
| Opening cash and cash equivalents  | 327,326   | 305,586   |          |
| Profit for the period Share of profits (losses) of equity-accounted investees Income taxes Italian post-employment and other employee benefits Stock grant plans Gains (losses) on the sale of assets Net financial income Amortisation, depreciation and write-downs Accruals to/reversals of provisions for risks Other operating income/expense Write-downs/write-backs of inventories and work in progress | 61,060<br>(3,266)<br>21,524<br>783<br>1,619<br>(3)<br>1,524<br>17,161<br>(637)<br>(8,288)<br>20,340 | 61,574<br>(5,808)<br>24,966<br>705<br>1,612<br>(6)<br>3,810<br>12,630<br>(3,218)<br>(9,881)<br>11,600 |          |
| Gross cash flows from operating activities   | 111,817   | 97,984  |          |
| Net change in other operating assets and liabilities   | (40,890)  | (47,400)  |          |
| Funds From Operations  |   | 70,927  | 50,584   |
| Changes from (used in) working capital   | (102,379)   | (71,915)  |          |
| Cash flows from (used in) operating activities   | (31,452)  | (21,331)  |          |
| Cash flow from regular investing activities  | (8,251)   | (13,882)  |          |
| Free Operating Cash Flow   |   | (39,703)  | (35,213) |
| Strategic investments Other changes in investing activities  | -<br>154  | -<br>494  |          |
| Cash flows from (used in) investing activities   | (8,097)   | (13,388)  |          |
| Dividends paid Cash flow from financing activities   | (2,874)   | (1,606)   |          |
| Cash flow from (used in) financing activities  | (2,874)   | (1,606)   |          |
| Net exchange rate gains (losses)   | (1,935)   | (3,995)   |          |
| Closing cash and cash equivalents  | 282,968   | 265,266   |          |

Cash and cash equivalents increased by €17.7 million to €283.0 million as at 30 September 2018, compared to the corresponding period of the previous year.

The Free Operating Cash Flow (FOCF) used before strategic investments totalled €39.7 million compared to €35.2 million as at 30 September 2017.

It should be noted that in January 2018, in line with the agreement signed in December 2017 with the Swedish customer AB Storstockholms Lokaltrafik (SL), the outstanding advances of approximately €23.5 million were repaid plus VAT (€5.9 million) recovered in the half-year and plus interest (€1.7 million).

# Alternative "non-gaap" performance indicators

The management of Ansaldo STS assesses the economic performance and financial position of the Group also on the basis of a number of indicators not provided by the IFRS - EU.

As required by CESR communication 05 - 178b and considering the guidelines of the ESMA communication of 30 June 2015, Guidelines on Alternative Performance Measures, the components of each of these indicators are described below:

- **EBIT**: the Operating profit is equal to the unadjusted profit before income taxes and financial income and expense. It does not include income and expense on non-consolidated equity investments and securities or the gains (losses) on the disposal of consolidated equity investments, classified in "Financial income and expense" in the financial statements or, for equity-accounted investees, in the caption "Share of profits (losses) of equity-accounted investees".
- Free Operating Cash Flow (FOCF): obtained as the sum of the cash flow generated (used) by the operations and cash flow generated (used) by investing activities and divestments in tangible and intangible assets and in equity investments, net of cash flows attributable to purchase or sale of shares that, by their nature or significance, constitute themselves as "strategic investments". The FOCF construction method for the financial years compared is presented in the reclassified consolidated statement of cash flow in the paragraph relating to the consolidated financial standing.
- Funds from Operations (FFO): given by the cash flow generated (used) by operations, net of the component represented by changes in the working capital. The FFO construction method for the financial periods compared is presented in the reclassified consolidated statement of cash flow in the paragraph relating to the consolidated financial standing.
- Economic value added (EVA): the difference between operating profit net of income taxes and the cost of the
  average invested capital of the two periods under comparison, calculated using the weighted average cost of capital
  (WACC).
- **Net Working Capital**: includes trade receivables and payables, inventories, assets and liabilities from contracts and provisions for risks and charges, net of other current assets and liabilities.
- Net Invested Capital: the sum of non-current assets, non-current liabilities and net working capital.
- **Net financial position or debt**: the calculation method used complies with paragraph 127 of CESR recommendation 05-054b, implementing EC Regulation 809/2004.
- Return on Sales (ROS): calculated as the ratio between EBIT and revenues from contracts with customers.
- Return on Equity (ROE): calculated as the ratio between the twelve-month net result and the average value of the net assets in the two periods compared.
- Research and Development Costs: the sum of costs incurred for research and development, expensed and sold. Normally, expensed research costs means costs referring to so-called "basic technology", i.e., aimed at achieving new scientific and/or technical knowledge applicable to different new products and/or services. Sold research costs represent that commissioned by customers and for which there is a specific sales order and they are treated exactly like an ordinary order (sales contract, profitability, invoicing, advances, etc.) in accounting and management terms.

#### Other non-GAAP indicators

- **New orders:** the sum of the contracts signed with the buyers during the period considered, which generate the contractual characteristics to be included in the order book.
- **The Order backlog** shows revenues not yet recorded for orders received. The Order backlog at the end of the accounting period is calculated as follows:
  - order backlog at the beginning of the accounting period;
  - plus new orders during the period;
  - less revenues for the period;
  - less any changes to the initial portfolio following changes in the scope, exchange differences and any cancellations of orders.
- Headcount: the number of employees recorded in the company's register on the last day of the period reviewed.

## **Report on operations**

## Market and business scenario

Orders intake as at 30 September 2018 amounted to approximately €630 million (€915 million as at 30 September 2017). Below is the main information by geographic area:

#### **ITALY**

Orders intake during the period amounted to approximately €198 million, including approximately €14 million relating to the framework agreement with RFI for the supply of LED signals and a further €13 million relating to the contract entered into with Trenitalia for the supply of ETCS level 2 on-board units on 116 trains. Again, as regards RFI, the following are worthy of note: the supply of the ERTMS signalling system for the Milan junction (€14 million) and the upgrade of signalling (SCC-M) on the Florence-Rome high-speed line (€11 million).

Also worth mentioning are the changes relating to the Piscinola-Capodichino section of the Alifana railway (€35 million) and Line 4 of the Milan underground (€12 million).

#### **REST OF EUROPE**

Orders amount to approximately €86 million, mainly in France (€45 million) and in Denmark (€19 million). In France, a contract was signed with RATP for the implementation of the OCTYS - Open Control of Train Interchangeable & Integrated System - (CBTC-based technology) to modernise a 14 km stretch, serving 28 stations on metro Line 6 (€18 million).

In Denmark, approximately €19 million was recorded for the Copenhagen project, of which approximately €8 million was for Hitachi Rail Italy train operations.

### MIDDLE EAST

Orders intake in the period totalled approximately €60 million.

These include €34 million for the new JV O&M contract for the metro serving Princess Noura University in Riyadh; Ansaldo STS has been working on the site since 2009, starting with the contract for the design and construction of the driver-less system serving the campus of the largest university for women in the world, which was completed on time in 2012. In the last 6 years Ansaldo STS has supported the main contractor in the construction of the campus, within its O&M activities.

Changes amounting to €21 million occurred on the Line 3 project.

It should be noted that in September, Ansaldo STS, as part of a consortium, received a letter awarding them the contract for the operation and maintenance of Lines 3, 4, 5 and 6 of the Riyadh metro, for a period of 12 years.

#### **AMERICAS**

Orders received during the period amounted to approximately €128 million, of which approximately €38 million relates to the sale of components, maintenance and modernisation of freight lines.

It is worth mentioning that approximately €38 million related to the contract entered into with LIRR (Long Island Railroad) for the addition of the third track on the Floral Park-Farmingdale line, €17 million related to the contract entered into with the PAAC (Port Authority of Allegheny County) for the replacement of the "Trip Stop" automatic system, and finally, €15 million related to the contract entered into with LACMTA for the upgrade of the track circuits on Line 10 of the Los Angeles subway.

#### **ASIA-PACIFIC**

Orders intake come to approximately €158 million, including roughly €91 million acquired in Australia and mainly relating to variations on mining and freight transport railway lines (Rio Tinto).

As far as the Far East is concerned, orders amount to approximately €48 million, including approximately €7 million relating to the contract entered into with the Shanghai Metro and in partnership with CASCO for the supply of track circuits on 31 new trains for Line 2 of the Shanghai metro and another €23 million relating to different contracts entered into with the partner Insigma for systems and components on Lines 6 and 11 of the Cheng Du metro.

Key orders acquired in the first nine months of 2018 are as follows:

| Country              | Project  | Customer                                      | Value (€m) |
|----------------------|--|---|------------|
| Australia            | Rio Tinto – Change orders  | Rio Tinto                                     | 74         |
| U.S.A.               | LIRR project extension from Floral Park to Hicksville - New York | Third track construction contract JV          | 38         |
| Italy                | Piscinola – Capodichino – order change                           | EAV   | 35         |
| Saudi Arabia         | Riyadh O&M (PNU)   | Princess Noura Bint<br>Abdulrahman University | 34         |
| France               | OCTYS L6   | RATP  | 18         |
| U.S.A.               | Trip Stop replacement  | PAAC  | 17         |
| U.S.A.               | Los Angeles – replacement track circuits                         | LACMTA  | 15         |
| Various EU /<br>Asia | Service & Maintenance  | Various                                       | 54         |
| Various EU /<br>Asia | Components   | Various                                       | 53         |
| U.S.A.               | Components   | Various                                       | 38         |

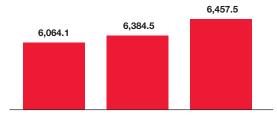

## Orders for the first nine months of 2018 and 2017 (€m)

### **New orders**

The orders portfolio amounts to €6,064.1 million as at 30 September 2018 compared to €6,457.5 million as at 31 December 2017, down by €393.4 million (€6,384.5 million as at 30 September 2017).

## Order backlog as at 30 September 2018 and 2017 (€m) and 31 December 2017

September 2018 September 2017 December 2017

The orders portfolio in September 2018 includes the residual value of the currently-suspended contract for Libya for €425.7 million.

## **Business performance**

Revenue in the first nine months of 2018 totalled €984 million (€945 million as at 30 September 2017). Below is the main information by geographic area:

## **ITALY**

#### **RAILWAYS:**

In relation to the project for the technological upgrade of the Turin-Padua Line, phase 6.1 was completed in June, as scheduled.

With regard to the Florence-Rome direct line project, phase A design, procurement and installation activities have advanced; an amending act is also being negotiated to regulate all the changes encountered thus far, with respect to the plan.

In August, the activation of phase 2 of the new Brescia Centrale Central Automated System (ACC - Apparato Centrale Computerizzato) was successfully completed, as per the work plan.

#### MAINTENANCE & SERVICE AND SPARE PARTS:

As regards the manufacturing of components, activities concentrated mainly on the supply of spare parts for RFI (for the Conventional Network as well as High Speed), the production of electronic cards for Hitachi Rail Italy S.p.A., and the supply of components.

Activities related to the assistance concerned contracts with the RFI customer and technical assistance for systems under the outsourcing contract for FS services.

#### NAPLES METRO LINE 6:

Work on the Mergellina-Municipio section is proceeding, although there are delays with respect to the contractual schedule, mainly due to critical issues related to the construction of the ventilation chambers and the failure of the operator ANM to authorise access to sites.

#### ROME METRO LINE C:

In May, the San Giovanni station was opened for commercial use.

Excavation activities for the construction of section T3 (from San Giovanni to Fori Imperiali) are proceeding. Economic and financial disputes of Metro C with the customer and of ASTS with Metro C are still ongoing and there have been no significant updates during the period.

## MILAN METRO LINE 5:

The Milan Metro Line 5 project has been completed, and the entire line is currently operating. It should be noted that in July the test certificate for the Bignami - Garibaldi section was obtained.

#### FLORENCE TRAM LINE

In July, Line 3 of the Florence tram line entered into service.

Work continued on Line 2, which was delayed with respect to the contractual schedule, mainly due to critical issues generated due to the situation of one of the shareholders.

#### MILAN METRO LINE 4:

During the period, engineering and procurement activities continued; the first access to the line was granted and installation activities in the Expo section are ongoing.

A new schedule of works was defined with the customer, which provides for the opening of functional sections.

#### **GENOA METRO:**

In March, the last train provided for under the contract successfully became operational.

The actions required for the initiation of the second phase of works on the depot are being defined.

#### **REST OF EUROPE**

#### TURKEY

With reference to the Mersin-Toprakkale project, in August the ETCS Level 1 system for Multistation 01 to 05 was put into operation; while the preparatory activities for the commissioning of the ETCS Level 1 system for Multistation 06 to 08 continued.

With regard to the Ankara metro, Line 1 with the CBTC system was put into operation in July.

#### **GREECE:**

With regard to the Thessaloniki project, design and procurement activities relating to technological systems are progressing and installation activities have begun.

With regard to the contract with Ergaose for the supply of on-board equipment, activities were completed with final acceptance from the customer.

#### **DENMARK:**

In Denmark, testing activities relating to the Cityringen Copenhagen metropolitan line continue. With regard to the construction of the tram line in the city of Aarhus, the Odderbane entered non-urban section went into service in August.

## SWEDEN:

As regards the Red Line project for the Stockholm metro, at the beginning of April 2018 Ansaldo STS Sweden filed a request for arbitration against SL with the SCC Arbitration Institute, appointing its own arbitrator.

Note that the Red Line project as a whole carried out gross ongoing work amounting to €98 million with an allowance for impairment of around €35 million allocated following assessment of the risk deriving from the existing contractual termination dispute.

#### **UNITED KINGDOM:**

In the UK, design and procurement of technological systems continued in relation to the Glasgow metro, and installations began despite delays in the work plan.

With regard to the project for the technological upgrade of the signalling system on the Ferriby-Gilberdyke railway line, design activities are continuing, though they have been delayed as relates to the updated work plan.

#### **BELGIUM**:

In Belgium, work is continuing on the design and procurement of technological systems relating to the project for the technological upgrade of the signalling system on Lines 1 to 5 of the Brussels metro, despite delays in the work plan.

#### FRANCE:

In May, the PAI-NG Interlocking system at Rennes station became operational.

Work on developing the on-board system for the Bi-Standard project is continuing, behind schedule.

### NORTH AFRICA AND MIDDLE EAST

#### SAUDI ARABIA:

In Saudi Arabia, work is progressing on the Riyadh Metro Line 3 project despite delays in the completion of civil works in comparison to timeframes in the updated work plan. In August, CBTC driverless dynamic testing began on the operational section.

#### LIBYA:

The project with the local railways has been suspended and it is difficult at the moment to hypothesise a possible recovery of activities.

#### MOROCCO:

In Morocco, work is progressing on the High Speed project on the Kenitra-Tangier line.

Kenitra station became operational in May.

In July and August, the Kenitra and Tangier stations were put into operation, interfacing with the Bombardier Interlocking systems.

### **AMERICA**

#### USA:

In the state of Hawaii, activities related to the Honolulu metro construction advanced in terms of design, production and installation. Delays connected to civil works have been reported.

In particular the client is considering a Public Private Partnership (P3) for the completion of construction of the final of three phases of the project as well as for the long term operations and maintenance. The company is in continual contact with the client regarding the project and to preserve its rights and interests.

Relating to the MBTA PTC (Positive Train Control System) project in Boston the installation and of the 15 lines and trains were completed and finalized the tests activities on pilot lines. As consequence contractual relations with the customer had a significant improvement. A discussion regarding the redefinition of elements of the work is under way.

#### PERU:

The design of phase 1B for the construction of line 2 and a section of line 4 of the Lima metro is currently being approved; at the same time, civil works continue to be affected by significant delays generated by the difficulty in acquiring the areas to be expropriated, with a consequent impact on activities relating to Ansaldo STS's scope of work.

An arbitration proceeding was initiated by the Licensee against the assignor, before the ICSID (International Centre for Settlement of Investment Disputes) in Washington, in order to obtain recognition of the costs relating to the aforementioned delays and changes in the construction sequence, as well as works not included in the technical proposal

Negotiations on the Adenda 2 variation are in progress. The definition of Adenda 2, which also reviews the timetable for implementation of works, is relevant for the recalculation of the complex financing mechanism for the project.

#### **ASIA-PACIFIC**

#### TAIWAN:

Activities continued for the construction of the Taipei Metro Circular Line. Delays recorded by the parties responsible for carrying out civil works heavily impacted the schedule of works, and this lapse is currently being discussed with the customer. Installation activities have almost been completed and dynamic tests are underway along the line. Engineering and procurement activities are under way in Taipei, related to the project for the construction of the new San-Ying metro line.

#### CHINA:

The updating of the CBTC lines continue with the installation of the new software version, improved in terms of performance, in comparison to the currently installed one.

#### INDIA:

With regard to the Calcutta metro project, design and production activities are progressing according to plan. During the period, the installation of signalling systems in the depot and in the first six stations was completed; the on-board equipment for the first three trains in the fleet was also delivered.

Detailed design and production activities for the Noida metro project are also nearing completion; installation activities along the line were completed during the period, while preparatory testing for the roll-out of the first ATP phase of the project is proceeding with difficulty.

Finally, the detailed design of Line 1 of the Navi Mumbai metro has been completed and is in the process of being approved by the customer, despite delays in access to sites whose impact on the work plan is currently being discussed with the customer; procurement and on-site delivery of materials are ongoing.

#### MALAYSIA:

In Malaysia, design and material procurement activities for the Klang Valley Double Track (KVDT) project continue, although there were delays in the approval of area design and release.

#### AUSTRALIA:

In Australia, production focused mainly on the AutoHaul project, part of the Framework Agreement with Rio Tinto (RAFA), in which work continued on upgrading the software and installing it on the locomotives and testing the system on the line, and where the first driverless journeys were carried out.

The project is scheduled to be completed in the first half of 2019 and negotiations around the maintenance contract are ongoing.

Ansaldo STS has signed a new contract with the customer Rio Tinto for the installation and commissioning of 29 new locomotives.

# Key events of and after the reporting period as at 30 September 2018

RATP (Régie Autonome des Transports Parisiens), the Paris metro operator, awarded Ansaldo STS a contract worth €17.6 million for the implementation of the OCTYS - Open Control of Train Interchangeable & Integrated System - (CBTC-based technology) to modernise the 14 km stretch serving 28 stations on metro Line 6. The project is part of the "Metro 2030" strategic plan launched by RATP for the modernisation of metropolitan operating systems with the development of digital technologies on the Paris metro network. Operational since the end of 2012 on Line 3, the Ansaldo STS CBTC provides maximum performance by significantly reducing routes and increasing operational efficiency.

In September, Ansaldo STS, as leader of the FLOW consortium (a consortium formed by Ansaldo STS S.p.A., Ferrovie Dello Stato Italiane S.p.A. and Alstom Transport S.A.), received a letter of award from the ArRiyadh Development Authority (ADA) for the Operation & Maintenance contract for Lines 3, 4, 5 and 6 of the Riyadh metro. The contract has a term of 12 years, including the mobilisation period and has a total value for the FLOW consortium of 10.9 billion Saudi rials, equal to 2.9 billion dollars. Ansaldo STS's share is approximately USD 1 billion.

In early October, Ansaldo STS, through its subsidiary Ansaldo STS Malaysia Sdn Bhd, a partner of the Ansaldo STS-Pestech consortium (a consortium formed by Ansaldo STS Malaysia Sdn Bhd and Pestech Technology Sdn Bhd), was awarded a contract for the signalling of the 198 km railway section between Gemas and Johor Bahru in southern Malaysia. Ansaldo STS's share of the contract is approximately 264 million MYR, which is approximately €55 million. The scope of Ansaldo STS's work includes the supply of the main signalling system based on MicroLok II interlocking, automatic train protection (ATP) and train control systems for the operations centre at KL Sentral and control centre at Gemas.

With reference to the "System Delivery Agreement" signed on 3 November 2010 between Ansaldo STS Sweden and AB Storstockholms Lokaltrafik (SL) regarding the upgrade of the signalling system on the line of the Stockholm

metro known as the "Red Line", following the unilateral termination of the contract by SL on 7 November 2017, at the beginning of April 2018 Ansaldo STS Sweden filed a request for arbitration against SL with the SCC Arbitration Institute, appointing its own arbitrator.

To summarise, with this action, Ansaldo STS Sweden requested the arbitration tribunal to establish that the unilateral termination of the contract was unfounded, that it constitutes a breach of the contract and that Ansaldo STS is entitled to compensation.

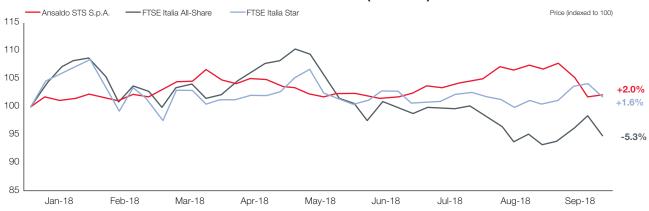

## Financial disclosure

The official share price in the 31 December 2017 to 30 September 2018 period rose from €12.00 to € 12.24, up 2.0%.

The share's period high of € 12.92 was recorded on 07 September 2018 and its low of € 12.01 on 02 January 2018. An average 121,216 shares were traded daily in the period, compared to 104,586 shares traded in the corresponding period of 2017.

During the period under consideration, the FTSE Italia All Share index fell by 5.3% and the FTSE Italia STAR rose by 1.6%.

# 2 Notes to the condensed interim consolidated financial statements as at 30 September 2018

## 2.1 General information

The registered offices of Ansaldo STS S.p.A., the parent company, are at Via Paolo Mantovani 3-5, Genoa, while its secondary and administrative offices are at Via Argine 425, Naples. The company has been listed on the Star segment of the stock exchange managed by Borsa Italiana S.p.A. since 29 March 2006. Its shares were included in the FTSE MIB index from 23 March 2009 to 23 March 2014 and then in the FTSE Italia Mid Cap index from 24 March 2014 until 6 April 2015. They were moved back to the FTSE MIB index between 7 April 2015 and 20 December 2015. Since 21 December 2015, the Company's shares have again been included in the FTSE Italia Mid Cap index.

The issued and fully-paid share capital amounts to  $\le$ 100,000,000.00 and is represented by 200,000,000 ordinary shares, with a nominal value of  $\le$ 0.50 each.

Hitachi Rail Italy Investments S.r.I. currently owns 101,544,702 ordinary shares, equal to 50.772% of the share capital of Ansaldo STS S.p.A.

Hitachi Ltd. manages and coordinates the activities of Ansaldo STS S.p.A. pursuant to Article 2497 et seq. of the Italian Civil Code.

The Ansaldo STS Group operates internationally in the design, construction and operation of signalling and transport systems for above-ground and underground railways, serving both freight and passengers. The Group operates worldwide as a main contractor and supplier of turnkey systems. As the parent company, Ansaldo STS S.p.A. also provides industrial and strategic direction and control, coordinating the activities of its operating subsidiaries (together, the "Ansaldo STS Group" or the "Group").

## 2.2 Basis of preparation

Ansaldo STS Group's condensed interim consolidated financial statements as at 30 September 2018 is drafted in accordance with article 154-ter, paragraph 5 of Legislative Decree no. 58/98 (the Consolidated Finance Act) - and subsequent amendments and integrations - and in accordance with IAS 34 "Interim Financial Reporting", issued by the International Accounting Standards Board (IASB).

This condensed interim consolidated financial statements as at 30 September 2018 was approved and authorised for publication by the Board of Directors in accordance with applicable legislation in the meeting held on 30 October 2018. As allowed by IAS 34, the explanatory notes are presented in condensed form. They do not include all the disclosures required for annual financial statements, as they refer only to those items that are essential for an understanding of the economic and financial position of the Group, given their amount, composition or changes. Accordingly, these condensed interim consolidated financial statements should be read together with the consolidated financial statements as at 31 December 2017.

The accounting policies used for the condensed interim consolidated financial statements are unchanged from those of the consolidated financial statements as at 31 December 2017, with the exception of the following. Specifically, in the "New IFRS and interpretations of the IFRIC" section of the consolidated financial statements as at 31 December 2017, it can be seen that the Group adopted IFRS 15 and IFRS 9 from 1 January 2018. IFRS 15 replaces IAS 11 - Construction Contracts, IAS 18 - Revenue and related interpretations and applies to all revenues from customer contracts, unless these contracts fall within the scope of other standards. The new standard introduces a new five-step model that will apply to revenues from customer contracts. IFRS 15 provides for the recognition of revenues from customer contracts for an amount that reflects the consideration to which the entity believes it is entitled in exchange for the transfer of goods or services to the customer.

The standard involves the exercise of an opinion by the entities, which takes into account all the facts and circumstances relevant to the application of each stage of the model to contracts with its customers. The standard also specifies the recognition of incremental costs associated with obtaining a contract and costs directly associated with the completion of a contract.

The new IFRS 15 standard has been applied by the Group since 2018 and the Cumulative Effect Method has been used to measure past impacts. Therefore, revenues from customer contracts for 2017 recognised on the basis of IAS 11 and IAS 18 were not restated but an adjustment was made to Contract work in progress and progress payments and advances from customers (now Assets and Liabilities from contracts) with a matching entry in a profit or loss reserve, therefore with a direct impact on shareholders' equity as at 01 January 2018 restated.

In this way, the differential in revenues from customer contracts, for contracts in place as at 31 December 2017, calculated as if the new IFRS 15 standard had always been applied, was recognised at 1 January 2018 in a reserve for retained earnings (losses) due to the change of standard for a total value of approximately -€32 million (as a reduction in Shareholders' Equity), with a matching entry for a reduction in Contract work in progress, progress payments and advances from customers (now Assets and Liabilities from contracts).

As regards this impact, deferred tax assets and/or liabilities have been reported, with a matching entry in Shareholders' Equity of approximately €9 million (as an increase in other reserves of Shareholders' Equity).

For the sake of completeness, it should be noted that if the Group had also applied IAS 11 in the first nine months of 2018, the positive impact on revenues from customer contracts and Operating profit would have been approximately €5.8 million.

In addition, following the adoption of the IFRS 15, the provision for loss contracts was reclassified, for a total amount of -€21 million, to the provisions for risks and charges.

IFRS 9 - Financial Instruments, on the other hand, replaces IAS 39 - Financial Instruments: Recognition and measurement for financial years beginning on or after 01 January 2018, bringing together all three aspects of accounting for financial instruments: classification and measurement, impairment and hedge accounting.

A regards the application of IFRS 9, the Group carried out an assessment, as a result of which no impact emerged, except for the adjustment for the value of the equity investment in Intermetro Spa in liquidation at fair value with the recognition of a decrease in value of €0.1 million.

With particular reference to receivables and the application of the expected credit losses method, following the assessment carried out, the allowance for doubtful accounts recorded as at 30 September 2018 was also adjusted following the application of the new standard.

Additional information is provided in the "New IFRS and IFRIC interpretations" section of the consolidated financial statements as at 31 December 2017.

A number of other amendments and interpretations apply for the first time in 2018, but have not had an impact on the Group's condensed interim consolidated financial statement.

Amounts are shown in thousands or millions of Euros unless stated otherwise.

Preparation of the condensed interim consolidated financial statements required management to make estimates.

## 2.3 Consolidation scope

Ansaldo STS Group's condensed interim consolidated financial statements as at 30 September 2018 include the interim financial statements of the companies/entities in the consolidation scope (the "consolidated entities") drafted pursuant to the accounting principles *IFRS-EU* of the Ansaldo STS Group. The consolidated entities are listed below, showing the Group's related direct or indirect interest therein:

<sup>\*</sup> The company was incorporated at the tender phase and will be used as a vehicle for the billing of the recent contract acquired in Baltimore. Given joint control is defined, the balances of the associated financial statements will be consolidated directly by the respective partners.

During the period, the process of liquidation and striking off from the local registers of Ansaldo STS do Brasil Sistemas de Transporte Ferroviario e Metropolitano LTDA and Ansaldo STS Beijing was completed, as the conditions that made these markets attractive to the Group no longer existed and, in the latter case, because all activities relating to the existing contracts were also completed.

In September, the process began for the liquidation of the Balfour Beatty Ansaldo SYSTEMS JV Sdn Bhd Joint Venture company, as the project for which the joint venture between Balfour Beatty and Ansaldo STS Malaysia was set up was completed.

As at 30 September 2018, trade receivables from related parties amounted to €35,712 thousand, down by €19,496 thousand compared to 31 December 2017, mainly due to positions with the MM4 consortium.

As at 30 September 2018, trade payables to related parties amounted to €24,220 thousand, down by €5,653 thousand compared to 31 December 2017 (€29,873 thousand) mainly due to fewer positions with Hitachi Rail Italy.

## Non-current assets

Non-current assets totalled €323,600 thousand as at 30 September 2018, detailed as follows:

| <u>(€K)</u>                   | 30.09.2018 | 31.12.2017 |
|-------------------------------|------------|------------|
| Intangible assets             | 45,264     | 47,505     |
| Property, plant and equipment | 84,917     | 85,349     |
| Equity investments            | 74,055     | 78,753     |
| Receivables                   | 50,756     | 43,456     |
| Deferred tax assets           | 57,542     | 36,213     |
| Other non-current assets      | 11,066     | 13,794     |
| Total                         | 323,600    | 305,070    |

## Specifically:

- intangible assets amount to €45,264 thousand and mainly include goodwill (€34,569 thousand). Capitalisations and acquisitions for the period amounted to €1,627 thousand and amortisation totalled €3,859 thousand;
- property, plant and equipment amount to €84,917 thousand and essentially refer to properties owned by the parent company. Capitalisations and acquisitions for the period amounted to €6,995 thousand and depreciation totalled €7,513 thousand;
- equity investments amounted to €74,055 thousand, down €4,698 thousand on 31 December 2017, mainly due to the effect of equity investments measured using the equity method; this reduction is attributable to the negative change in the equity value of Balfour Beatty System JV SDN BHD (€7,459 thousand) and that of International Metro Service S.r.I. (€1,035 thousand), due in both cases to the distribution of a dividend, offset by the positive results of Metro 5 S.p.A. (€3,970 thousand) and Metro Brescia S.r.I. (€328 thousand). Equity investments measured at cost include the closure of Ansaldo STS do Brasil Sistemas de Transporte Ferroviario e Metropolitano LTDA (€334 thousand);
- non-current receivables amounted to €50,756 thousand, an increase of €7,300 thousand compared to the balance as at 31 December 2017, mainly due to the shareholders' loan for SPV M4 S.p.A.;
- deferred tax assets amounted to €57,542 thousand, an increase of €21,329 thousand compared to the balance as at 31
  December 2017, mainly due to the effect of the application of IFRS 15, determined as €9,349 thousand (with a balancing
  entry directly in shareholders' equity), and for additional deferred taxes allocated by the parent company;
- other non-current assets of €11,066 thousand show a decrease of €2,728 thousand, mostly due to the reduction of the non-current prepaid trademark licence fees.

## Non-current liabilities

Non-current liabilities of €61,056 thousand as at 30 September 2018 are made up as follows:

| (€K)                          | 30.09.2018 | 31.12.2017 |
|-------------------------------|------------|------------|
| Employee benefits             | 38,171     | 37,572     |
| Deferred tax liabilities      | 8,458      | 8,830      |
| Other non-current liabilities | 14,427     | 14,378     |
| Total                         | 61,056     | 60,780     |

#### Specifically:

- the employee benefits, which include the Italian post-employment benefits and other employee benefit obligations, rose €599 thousand to €38,171 thousand compared to 31 December 2017;
- deferred tax liabilities decreased by €372 thousand to €8,458 thousand.

## **Inventories**

Inventories totalled €128,760 thousand as at 30 September 2018, detailed as follows:

| (K€)  | 30.09.2018 | 31.12.2017 |
|---|------------|------------|
| Raw and consumable materials                | 27,310     | 22,720     |
| Work in progress and semi-finished products | 20,335     | 11,799     |
| Finished products and goods for resale      | 10,496     | 9,915      |
| Advances to suppliers                       | 70,619     | 66,561     |
| Total                                       | 128,760    | 110,995    |

In the period under review there was a net increase of €17,765 thousand compared to 31 December 2017, mainly due to the increase in work in progress products and advances to suppliers.

## **Assets and Liabilities from contracts**

Assets and liabilities from contracts were negative by €212,586 thousand and are detailed as follows:

| <u>(</u> €K)                          | 30.09.2018  | 31.12.2017  |
|---------------------------------------|-------------|-------------|
| Advances from customers               | (29,835)    | (63,090)    |
| Progress payments                     | (1,244,837) | (1,238,554) |
| Work in progress                      | 1,793,201   | 1,719,784   |
| Provision for loss contracts          | -           | (10,597)    |
| Allowance for contract Assets         | (57,065)    | (27,953)    |
| Contract Assets                       | 461,464     | 379,590     |
|                                       |             |             |
| Advances from customers               | (246,764)   | (266,885)   |
| Progress payments                     | (2,698,271) | (2,610,525) |
| Work in progress                      | 2,288,936   | 2,231,603   |
| Provision for loss contracts          | -           | (10,079)    |
| Allowance for contract liabilities    | (17,951)    | (27,150)    |
| Contract Liabilities                  | (674,050)   | (683,036)   |
| Assets and Liabilities from contracts | (212,586)   | (303,446)   |

It should be noted that as a result of the adoption of the new accounting standard IFRS 15, work in progress for several projects at 1 January 2018 has been recalculated with a total impact of -€32 million on the net value of approximately -€303 million recorded at the end of 2017 with a matching entry in the equity reserve for the change in standard. In addition, following the introduction of the new IFRS 15 standard, the provision for loss contracts was reclassified, for a total amount of -€21 million, to the provisions for risks and charges item.

The total value of assets and liabilities from contracts increased by €90,860 thousand due to the higher production in excess of revenue, to the decrease in advances from customers, essentially due to the repayment in January 2018 of the outstanding advance to the Swedish customer AB Storstockholms Lokaltrafik (SL) for approximately €24 million and to the impact of the new accounting principle described above.

Net Assets and Liabilities from contracts includes €112,154 thousand collected in relation to the contract in Libya, which is still suspended given the well-known events affecting that country in recent years, as described in the directors' report on operations. This advance amply covers the work carried out to date but not yet invoiced. As a consequence, no probable risks are known at the reporting date that would require provisions to be recorded.

## Trade receivables and payables

Trade receivables and payables as at 30 September 2018 are made up as follows:

|                              | 30.09.20    | 18       | 31.12.20    | 17       |
|------------------------------|-------------|----------|-------------|----------|
| <u>(</u> €K)                 | Receivables | Payables | Receivables | Payables |
| Third parties                | 616,897     | 341,026  | 681,456     | 383,766  |
| Total due from third parties | 616,897     | 341,026  | 681,456     | 383,766  |
| Related parties              | 35,712      | 24,220   | 55,208      | 29,873   |
| Total                        | 652,609     | 365,246  | 736,664     | 413,639  |

There was a decrease in both the value of total trade receivables (€84,055 thousand) and total trade payables (€48,393 thousand) compared with the end of the previous year, mainly due to the reduction of positions in the parent company.

## Provisions for risks and charges

Provisions for risks and charges amount to €37,235 thousand as at 30 September 2018, an increase of €21,268 thousand compared to 31 December 2017 (€15,967 thousand). The increase, as mentioned above, is essentially due to the reclassification of the provision for loss contracts from the "Assets and liabilities from contracts" item following the application of the new IFRS 15 standard.

## Other assets/liabilities

The net value of other assets (liabilities) as at 30 September 2018 was a positive €5,634 thousand, broken down as follows:

|   | 30.09.20 | 18          | 31.12.201 | 17          |
|---|----------|-------------|-----------|-------------|
| <u>(</u> €K)                              | Assets   | Liabilities | Assets    | Liabilities |
| Prepayments - current portion             | 9,079    | -           | 9,040     | -           |
| Research grants                           | 17,031   | -           | 18,130    | -           |
| Employees                                 | 2,525    | 37,619      | 2,361     | 34,777      |
| Indirect and other tax assets/liabilities | 63,703   | 11,106      | 33,906    | 13,563      |
| Social security and pension institutions  | -        | 15,101      | -         | 16,032      |
| Derivatives                               | 5,769    | 4,694       | 10,715    | 2,740       |
| Other                                     | 10,550   | 34,114      | 10,213    | 34,064      |
| Total other assets and liabilities        | 108,657  | 102,634     | 84,365    | 101,176     |
| Related parties                           | 21       | 410         | 21        | 410         |
| Total                                     | 108,678  | 103,044     | 84,386    | 101,586     |

Details of the main items are set out below:

- prepayments of €9,079 thousand are virtually in line with the balance as at 31 December 2017 and relate to prepaid insurance premiums and prepaid commissions on sureties;
- net payables to employees at the end of the period amounted to €35,094 thousand, up €2,678 thousand on 31 December 2017;

- net indirect and other tax assets amount to €52,597 thousand compared to €20,343 thousand as at 31 December 2017 and the increase is mainly due to the rise in parent company VAT credit;
- the net balance of derivatives is positive and amounts to €1,075 thousand, down €6,900 thousand on 31 December 2017;
- other net liabilities of €23,564 thousand dropped by €287 thousand from €23,851 thousand as at 31 December 2017.

## Financial disclosure

The following disclosure is required by Consob Communication no. DEM/6064293 of 28 July 2006.

| Hitachi High Technologies Europe Gmbh        | 367      | -                      | -      | -                | -                    | -                        |
| Hitachi High Australia Pty Ltd               | -        | -                      | 11     | -                | -                    | -                        |
| Total  | 52,136   | 669                    | 56,166 | -                | -                    | -                        |
| Related parties as percentage of total       | 6%       | 4%                     | 9%     |                  |                      |                          |

Revenues from related parties as at 30 September 2018 amounted to €53,604 thousand; the slight increase (€1,468 thousand) compared with the same period of 2017 (€52,136 thousand) is mainly due to the positions with Hitachi Rail Italv.

Related party costs amounted to  $\le$ 62,895 thousand, up  $\le$ 6,729 thousand on the same period of the previous year ( $\le$ 56,166 thousand), mainly due to the positions with Metro Service.

## Revenues from contracts with customers

Revenues totalled €983,887 thousand as at 30 September 2018, compared with €945,035 thousand in the third quarter of 2017, an increase of €38,852 thousand due to the greater progress of projects in Italy.

## Other operating income

|  | For the first nine m | onths of |
|--|----------------------|----------|
| (€K)   | 2018                 | 2017     |
| R&D grants   | 2,791                | 1,408    |
| Disposal gains on PPE and intangible assets            | 3                    | 6        |
| Provisions for risks and charges                       | 1,760                | 7,134    |
| Royalties  | 5                    | 105      |
| Financial income and exchange gains on operating items | 12,567               | 5,072    |
| R&D tax credits  | 1,594                | 1,402    |
| Other operating income                                 | 2,711                | 310      |
| Other operating income from third parties              | 21,431               | 15,437   |
| Other operating income from related parties            | 1,354                | 669      |
| Total other operating income                           | 22,785               | 16,106   |

Other operating income amounted to €22,785 thousand, up €6,679 thousand compared to €16,106 thousand in the corresponding period of the previous year, mainly related to Financial income and exchange gains on operating items.

## **Purchases and services**

|   | For the first nine m | onths of |
|---|----------------------|----------|
| (€K)  | 2018                 | 2017     |
| Materials   | 223,168              | 230,157  |
| Change in inventories                             | (4,394)              | (2,075)  |
| Services  | 347,747              | 302,098  |
| Rentals and operating leases                      | 15,214               | 15,450   |
| Total purchases and services from third parties   | 581,735              | 545,630  |
| Total purchases and services from related parties | 62,895               | 56,166   |
| Total purchases and services                      | 644,630              | 601,796  |

Purchases and services (€644,630 thousand) increased by €42,834 thousand compared with the previous year, due to greater production volumes developed during the period.

## **Personnel costs**

|   | For the first nine m | onths of |
|---|----------------------|----------|
| (€K)                                      | 2018                 | 2017     |
| Wages and salaries                        | 199,676              | 195,680  |
| Stock grant plans                         | 1,619                | 1,612    |
| Social security and pension contributions | 48,034               | 47,366   |
| Italian post-employment benefits          | 574                  | 487      |
| Other defined benefit plans               | 692                  | 636      |
| Other defined contribution plans          | 2,930                | 2,410    |
| Recovery of personnel costs               | (28)                 | (18)     |
| Restructuring costs                       | -                    | -        |
| Other costs                               | 2,451                | 5,157    |
| Total personnel costs                     | 255,948              | 253,330  |

Personnel costs amounted to €255,948 thousand, compared with €253,330 thousand in the same period of the previous year, an increase of €2,618 thousand, mainly due to the higher average number of employees.

The average headcount of 4,181 employees rose by a net 120 employees compared to 4,061 in the same period of the previous year (average of 4,081 in 2017).

## Amortisation, depreciation and write-downs

Specifically:

|  | For the first nir | ne months of |
|--|-------------------|--------------|
| (€K)   | 2018              | 2017         |
| Depreciation and amortisation:                   |                   |              |
| - intangible assets                              | 3,859             | 3,939        |
| - property, plant and equipment                  | 7,513             | 7,708        |
|  | 11,372            | 11,647       |
| Write-downs:                                     |                   |              |
| non-current assets                               | -                 | -            |
| current receivables                              | 5,789             | 983          |
|  | 5,789             | 983          |
| Total amortisation, depreciation and write-downs | 17,161            | 12,630       |

Amortisation, depreciation and write-downs increased by €4,531 thousand to €17,161 thousand from €12,630 thousand in the corresponding period of the previous year, mainly due to the impact of write-downs on current loans.

## Other operating expenses

|  | For the first nine n | nonths of |
|--|----------------------|-----------|
| $(\in K)$                                      | 2018                 | 2017      |
| Provisions for risks and charges               | 1,123                | 3,916     |
| Membership fees                                | 634                  | 683       |
| Disposal losses on PPE and intangible assets   | 4                    | 116       |
| Exchange losses on operating items             | 5,447                | 5,116     |
| Provisions for loss contracts                  | 3,908                | 386       |
| Interest and other operating charges           | 2,345                | 382       |
| Indirect taxes                                 | 2,585                | 2,518     |
| Other operating expenses                       | 1,782                | 1,613     |
| Total other operating expenses - third parties | 17,828               | 14,730    |
| Other operating expenses - related parties     | 14                   | -         |
| Total other operating expenses                 | 17,842               | 14,730    |

Other operating expenses increased by €3,112 thousand on the corresponding period of the previous year mainly due to the higher provision for risks and charges for loss contracts and for the interest and other operating charges item.

## Internal work capitalised

|                           | For the first ni | For the first nine months of |  |  |
|---------------------------|------------------|------------------------------|--|--|
| <u>(</u> €K)              | 2018             | 2017                         |  |  |
| Internal work capitalised | 322              | 2,838                        |  |  |

Internal work capitalised mainly relates to the subsidiary Ansaldo STS France.

## **Net financial income (charges)**

| Total  | 3,266  | -                            | 3,266 | 5,808  | -       | 5,808 |  |

The share of profits (losses) of equity-accounted investees came to €3,266 thousand and relates to the results of Metro 5 S.p.A. (€1,886 thousand), International Metro Service S.r.I. (€925 thousand), Metro Brescia S.r.I. (€328 thousand) and Balfour Beatty Ansaldo Systems JV SDN BHD (€127 thousand).

## **Income taxes**

| (€K)                  | For the first nine me | For the first nine months of |  |  |  |
|-----------------------|-----------------------|------------------------------|--|--|--|
|                       | 2018                  | 2017                         |  |  |  |
| IRES                  | 15,191                | 10,821                       |  |  |  |
| IRAP                  | 2,038                 | 1,295                        |  |  |  |
| Other foreign taxes   | 12,143                | 15,166                       |  |  |  |
| Net deferred taxation | (7,848)               | (2,316)                      |  |  |  |
| Total                 | 21,524                | 24,966                       |  |  |  |

Income taxes as at 30 September 2018 amount to €21,524 thousand compared to €24,966 thousand as at 30 September 2017.

The effective tax as at 30 September 2018 is 26.06%, compared with 28.85% in the same period of the prior year. The decrease is mainly due to a different mix of the pre-tax results of the individual companies.

## 5 Earnings per share

Earnings per share ("EPS") are calculated by:

- dividing the profit for the period attributable to holders of ordinary shares by the average number of ordinary shares outstanding during the period, net of treasury shares (basic EPS);
- dividing the profit for the period by the average number of ordinary shares and those that could arise from the exercise of all options under stock option plans, net of treasury shares (diluted EPS).

| Basic EPS   | 30.09.2018            | 30.09.2017            |
|---|-----------------------|-----------------------|
| Average shares outstanding during the period<br>Profit for the period | 199,987,526<br>61,060 | 199,994,734<br>61,574 |
| Basic and diluted EPS   | 0.31                  | 0.31                  |

## 6 Financial risk management

The operations of the Group expose it to the following financial risks:

- market risks, related to operations in areas that use currencies other than the functional currency (currency risk) and the risk of interest rate fluctuations;
- liquidity risks, related to the availability of financial resources and access to the credit market;
- credit risk, arising from normal trading transactions or financing activities.

The Group specifically monitors each of these financial risks and acts promptly to minimise them, for example via the use of hedging derivatives. The approach adopted by the Ansaldo STS Group, in line with internal policies, for the management of these risks is described below.

Hedges are mostly arranged with the banking system. As at 30 September 2018, the Group has contracts in place for the following notional foreign currency amounts:

| (local currency '000) | Sell 09 18 | Buy 09 18 | 30.09.2018 | Sell 09 17 | Buy 09 17 | 30.09.2017 |
|-----------------------|------------|-----------|------------|------------|-----------|------------|
| Euro                  | 28,987     | 36,385    | 65,372     | 25,364     | 43,927    | 69,291     |

The net fair value of the derivatives in place (both fair value and cash flow hedges) as at 30 September 2018 is a positive €1,075 thousand.

# 7 Significant non-recurring events and transactions

In the first nine months of 2018, the Ansaldo STS Group did not record any significant events or transactions that could be classified as non-recurring.

## 8 Atypical and/or unusual transactions

During the first nine months of 2018, no atypical and/or unusual transactions took place.

## 9 Outlook for operations

The 2018 financial year will include the accounting effects coming from the adoption of the new IFRS15 standard. Volumes are expected in continuity with the previous year, while the profitability will be affected by a different and less favourable mix of projects. Further investments in R&D and commercial activity as well as specific initiatives focused on improving company effectiveness and efficiency are also budgeted in the year.

## 10 Disclosure on the opt-out regime

Pursuant to articles 70 paragraph 8 and 71 paragraph 1-bis of the Issuers' Regulation, we note that, in their meeting of 28 January 2013 and as permitted by articles 70 paragraph 8 and 71 paragraph 1-bis of the Issuers' Regulation, the Board of Directors of the Company resolved to opt out of the requirement to publish the relevant documents for transactions such as mergers, demergers, share capital increases via contributions in kind, acquisitions and sales.

Rome, 30 October 2018

For the Board of Directors
The Chairman
Alistair Dormer

# Annex A: statement pursuant to article 154-bis, paragraph 2 of Legislative Decree no. 58/1998

In accordance with the provisions of article 154-bis, paragraph 2 of the Consolidated Finance Act, the undersigned, Renato Gallo, Chief Reporting Officer of Ansaldo STS S.p.A., states that the condensed interim consolidated financial statements as at 30 September 2018 is consistent with the accounting evidence, ledgers and records.

Rome, 30 October 2018
