RATP entrusts Ansaldo STS signalling maintenance of metro and tramway networks in Paris

PRESS RELEASE

- **The contract has a global value worth EUR 17.8 million**

RATP (Paris Metro Operator) has awarded Ansaldo STS (STS.MI) a contract renewal to provide preventive and corrective maintenance of signalling systems and services on metro lines 2, 3 & 3bis, 6, 7 & 7bis, 8, 9, 10, 11, 12 and Tramway lines T1, T2, T3.

The contract worth Euro 17.8 millions has duration of 3 years with an optional 2 years extension (additional Euro 11 millions).

Ansaldo STS through its subsidiary in France started its historical partnership with RATP at the very beginning of metro history in Paris, more than 100 years ago.

With a constant focus on reliability, safety and innovation, Ansaldo STS contributes with success to the development and modernization of urban transport networks around the world.

Leader on Driverless Metro technology, the most advance signalling system for metro transport (Copenhagen, Taipei metros), Ansaldo STS also develops CBTC, Unattended Train Operation and conventional metro technologies in most of mega cities around the world: Paris line 3 "OCTYS", Chengdu & Chenyang, Riyadh, Thessaloniki, Roma, Napoli, Milano, Los Angeles and New-York.

Ansaldo STS also contributes to the smooth modernization of tramway technology with its Tramwave system (catenary free technology) to preserve cities' historical centers.

Ansaldo STS listed on the Italian Stock Exchange, is an international leading technology company that supplies transport solutions and signalling technology in the global Railway & Mass Transit Transportation business with the provision of traffic management, planning, train control and signalling systems and services. It acts as lead contractor and turnkey provider on major project worldwide. Ansaldo STS is headquartered in Genoa, Italy and employs over 4,217 people in 28 different countries. In 2010, its revenues reached € 1,284 M, with a gross operating margin of € 137 M and net profit of € 95 M.
